

Premium Accounts Service

Designed exclusively for Slimming World Consultants, MalgraBooks provides a simple and easy tax return service.

Our Premium Package includes all features of our standard package, but also includes submission of your SA100 Self Assessment Tax Return to HMRC and premium support

How it works

To run your accounts, our team will need some information on your business - such as your income and expenses. To make it as easy as possible to provide these, we've developed our Client Portal system which allows you to submit details directly to us, easily and securely.

Simply upload your monthly PFS documents through our system, as well as details of your expenses which you've incurred (we'll provide you with a short form and list of what you can claim for) and our friendly team will do the rest - collating and processing the numbers to create your monthly account overview report. This allows you to keep on track of how your business is performing, as well as planning for any tax which may be due at submission of your annual accounts.

Once we've finalised your annual account, we'll provide you with an overview and estimations of the Tax and National Insurance which is due. If you have any other employment, we can include your income from this as part of the calculations. Finally, once everything is checked and ready, our team will also ensure electronic submission of your SA100 Self Assessment Tax Return direct to HMRC.

Key Features

- Supports several groups
- Supports Team Developers
- Supports other employment
- Easy upload of documents
- Free Mileage Tracker
- Secure cloud storage of your files
- Monthly checks and reports of your accounts
- Self Assessment checks by our team
- Annual SA100 figures prepared - and submitted!
